

**Name** TAMURA Hirokazu  
**Affiliation** Tohoku University  
Department of Physics, Graduate School of Science  
6-3 Aramaki-aza-Aoba, Aoba-ku, Sendai, 980-8578, Japan  
E-mail tamura@lambda.phys.tohoku.ac.jp  
(Phone) +81-22-795-6454 (fax) +81-22-79506455

## Education

1988 Ph.D. in Department of Physics, University of Tokyo, Japan  
1985 MS in Department of Physics, University of Tokyo, Japan  
1983 BS in Department of Physics, University of Tokyo, Japan

## Positions held

2004-present Professor, Department of Physics, Tohoku University, Japan  
1996-2004 Associate Professor, Department of Physics, Tohoku University, Japan  
1988-1996 Assistant Professor, Department of Physics, University of Tokyo, Japan  
1987-1988 JSPS (Japan Society of the Promotion of Science) Research Fellowship for Young Scientists

## Awards & Honours

Nishina Memorial Award (2009), Inoue Prize for Science (2004),  
Inoue Research Award for Young Scientists (1991)

## Selected committee work

2014-present Science Council of Japan (Chair of the particle and nuclear physics division)  
2014-present International Union of Pure and Applied Physics (IUPAP) Commission 12 (Board member)  
2012-present Asian Nuclear Physics Association (ANPhA) (Secretary, Executive board member)  
2010-2016 Nuclear Physics Executive Committee of Japan (Chair)

## Five selected (recent) publications

1. H. Tamura et al., "Observation of a spin-flip M1 transition in  ${}^7_{\Lambda}\text{Li}$ ", **Physical Review Letters** 84 (2000) 5963-5966.
2. K. Tanida et al., "Measurement of the B(E2) of  ${}^7_{\Lambda}\text{Li}$  and Shrinkage of the Hypernuclear Size", **Physical Review Letters** 86 (2001) 1982-1985.
3. M. Ukai et al., "Hypernuclear Fine Structure in  ${}^{16}_{\Lambda}\text{O}$  and the  $\Lambda\text{N}$  Tensor Interaction" **Physical Review Letters** 93 (2004) 23250 1-5.
4. O. Hashimoto and H. Tamura, "Spectroscopy of  $\Lambda$  Hypernuclei", **Progress in Particle and Nuclear Physics** 57 (2006) 564-653.
5. T.O. Yamamoto et al., "Observation of Spin-Dependent Charge Symmetry Breaking in  $\Lambda\text{N}$  Interaction: Gamma-Ray Spectroscopy of  $4_{\Lambda}{}^4_{\Lambda}\text{He}$ ", **Physical Review Letters** 115 (2015) 222501 1-5.
